

The Daily Health Screener is Your Guide

Automated Return-to-Worksite (RTW) Clearance During Surge

Population	RTW Requirements	Testing Requirements*	Masking Requirements	Self Clear Option	Daily Health Screener Instructions (YES/NO)
 Covid Symptoms	Symptoms are completely gone or improving enough to resume work activities with a negative COVID test	 Single Test at any time Color or PCR	Yes  N95 Recommended	Yes	<input checked="" type="checkbox"/> Yes Self-assess, test and self-clear with Daily Health Screener
 Highest Risk Exposures**	Asymptomatic with daily COVID testing protocol	 Daily Testing (when onsite) first 5 days after exposure Repeat single test at 7-9 days after exposure with Color or PCR test	Yes  N95 Required	Yes	<input checked="" type="checkbox"/> Yes Self-assess, test and self-clear with Daily Health Screener If notified at work of an exposure, keep working and immediately retake the Screener

*Only UCSF approved tests are required. Information is in daily screener

**High risk exposures that are eligible for continuation of on-site work without quarantine include exposures to COVID positive household members, to members of carpools, and to aerosol-generating procedures. For reduced isolation and quarantine, individuals must have completed at least 1st series (2 - doses or 1- dose) of approved COVID vaccination and must not have immunocompromised conditions. N95 Masks can be picked up at security desk across campus.
