

# The Daily Health Screener is Your Guide

Automated Return-to-Campus or Worksite (RTCW) Clearance During Surge

Population	RTCW Requirements	Testing Requirements <sup>1</sup>	Masking Requirements	Self Clear Option	Daily Health Screener Instructions
 <b>Covid-Negative Symptoms <sup>2A</sup></b>	<b>Symptoms are completely gone or improving enough to resume work activities with a negative COVID test</b>	 Single Test at any time Color or PCR	Yes  <b>N95</b> Recommended	Yes	 <b>Yes</b> Self-assess, test and self-clear with Daily Health Screener  Receive RTW Clearance Email
 <b>Highest Risk Exposures <sup>2B</sup></b>	<b>Asymptomatic with daily COVID testing protocol</b>	 Daily Testing (when onsite) first 5 days after exposure Repeat single test at 7-9 days after exposure with Color or PCR test	Yes  <b>N95</b> Required	Yes	 <b>Yes</b> Self-assess, test and self-clear with Daily Health Screener  Receive RTW Clearance Email
 <b>Recovered COVID Positive <sup>2C</sup></b>	<b>Begin Jan 17</b> <b>Symptoms are gone or improving <sup>3</sup></b> <b>Isolation at least 5 days</b> <b>Negative rapid antigen COVID test before entry</b>	 Rapid Antigen test at UCSF performed on day 5 or later	Yes  <b>N95</b> Required; No PAPR <sup>4</sup>	Yes, after hotline rapid test schedule	 <b>Yes</b> Self-assess, test and self-clear with Daily Health Screener  Receive RTW Clearance Email

<sup>1</sup> Only UCSF-approved tests are required. Information is in the Daily Health Screener

<sup>2A</sup> For example, non-COVID-related runny nose, sore throat, cough, etc.

<sup>2B</sup> Highest Risk Exposures | For reduced quarantine, individuals must have completed 1st series of COVID vaccination and not have immunocompromised conditions; high-risk exposures that are eligible for continuation of on-site work without quarantine include exposures to COVID-positive household members, to members of carpools, and to aerosol-generating procedures.

<sup>2C</sup> COVID positive persons | For reduced isolation, individuals must have received a booster (or are not yet booster eligible), and must not have immunocompromised conditions

<sup>3</sup> Fever-free >24 hours without fever-reducing medications; diarrhea-free >48 hours if not related to pre-existing conditions; feeling ready to RTW; if high-risk unit, no sneezing/coughing

<sup>4</sup> PAPR: Powered Air Purifying Respirator
